INTRODUCTION OF UNIVERSITY OF SUNDERLAND

The life-changing University of Sunderland has 25,600 students based in campuses on the North East coast, in London and Hong Kong and at its global partnerships with learning institutions in 15 countries. Our strengths range from widening access and student experience to research, international and industry links.

- ▶ Ranked as a top 50 university in the Guardian University Guide 2024.
- ▶ Received five stars for teaching, inclusiveness, employability and facilities in the QS World University Rankings 2023.
- ▶ One of the world's best young universities according to the THE Young University Rankings 2023.
- ▶ In the top 10 universities in the UK for Careers Prospects (What Uni Student Choice Awards 2024)
- ▶ 1st in the north-east for teaching quality and student experience (The Times and Sunday Times Good University Guide 2023)
- ▶ 1st in the north-east for student satisfaction (The Complete University Guide 2025)

- ▶ Art programmes at the University of Sunderland were ranked 7th in the UK (Guardian University Guide, 2022)
- ▶ Art and Design programmes were ranked 20th in the UK (The Times Good University Guide, 2022)

Sunderland is a member of the highly respected Design and Art Directors Association (D&AD), an influential body that rewards creative excellence. The prestigious D&AD Award is well-regarded in the world of advertising and design and recognised globally as the ultimate creative accolad.

BA (Hons) Graphic Design programme has a 100% positivity score for how well the course has developed knowledge and skills students will need for the future as well as how fair the marking and assessment is, according to national Student Survey 2023.

The Design programmes at Sunderland have been winning top international design awards and accolades for almost three decades. The most recent successes include the D&AD "The Best in Show" and the Adobe Students Creative Awards. According to University League Tables 2020, Sunderland Design & Crafts ranked 29th in subject.

STUDENT SHARING

A Fruitful Design Learning Journey

This programme has provided an excellent learning experience for students with prior experience in graphic design. The programme has given me a much deeper understanding of the design process, guiding me through every step from initial idea development to final presentation.

The tutors are highly professional and patient, effectively mentoring students to successfully complete their assignments. Through this process, I learned how to transform a nascent concept into a well-executed design. The programme has also imparted valuable insights into the critical research and development stages that are essential to the design process.

I feel very fortunate that my classmates have been truly kind and supportive throughout this programme. This collaborative and supportive environment has created a wonderful atmosphere that has enhanced the overall learning experience.

Adonis CHAN
BA (Hons) Graphic Design
2023-24 Student

The winner of D&AD awards

Boris KWOK
BA (Hons) Graphic Design
2022-23 Graduate

I have many years of practical experience in design, but I still feel that professional recognition qualifications are an honor and are of great help to my career prospects. In view of this, I completed the Professional Diploma in Graphic Design programme at HKCT in 2021-22, and then continued my studies at the University of Sunderland in HKCT to complete the the BA (Hons) Graphic Design programme.

The programme at the school keep pace with the times, enriching my knowledge of current design and broadening my horizons. Through the guidance of the programme instructors, we were able to fully grasp the 5W1H of design. We were not just blindly pursuing visual beauty. It once again inspired my thinking and creativity and allowed me to regain my passion for design.

I think that this programme is suitable for those who want to enter the design industry or deepen their knowledge of design.

STUDENT SHARING

LEUNG Ka Yan
BA (Hons) Graphic Design
2022-23 Graduate

This programme has provided me with a deeper understanding of the design field, allowing me to learn various design theories, methods, and trends. This knowledge contributes to a broader perspective and richer thinking during the creative process, enabling a better understanding and application of design principles.

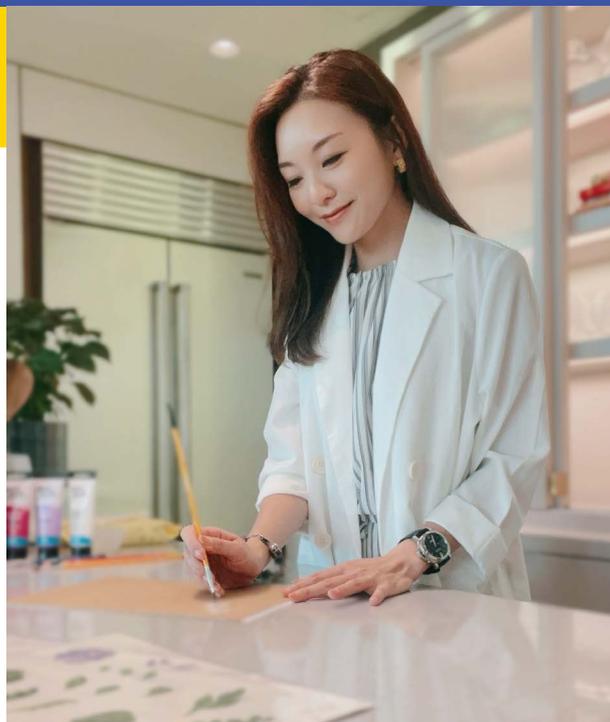

It has offered me opportunities for practice and experimentation, allowing me to freely explore design topics of interest and apply the knowledge and skills I have acquired to create works. The mentors have guided me in systematically conducting concept guidance, from ideation to realization, thereby helping me effectively express and present my design concepts.

This learning process has enriched my design thinking and sparked my creativity. Through continuous learning and practice, I have been able to develop unique and impactful creative works. The insights gained from this activity will play a significant role in propelling my professional development in the field of design and preparing for professional challenges.

Studying graphic design has been a truly rewarding experience for me. As a calligrapher for 4 years, I wanted to explore my possibilities and enhance my creativity, transitioning from delicate strokes to the art of visual communication.

Throughout my coursework and projects, I have gained a strong understanding of design principles and the creative process. I have acquired practical skills in areas such as typography, layout, and branding that will be invaluable as I progress in this field.

My journey through the Professional Diploma in Graphic Design program has been transformative. It has provided me with the knowledge, skills, and creative mindset to tackle a variety of design challenges, and has cultivated a deep passion for the field within me. I am enthusiastic about continuing to explore the endless possibilities of visual communication in the future.
