Hong Kong College of Technology Centre of International Education

香港專業進修學校國際教育中心

Hong Kong College of Technology (HKCT) is a charitable and independent post-secondary education institution under the HKCT Group Limited. Formerly known as the Mongkok Workers' Night School, which was established in 1957, HKCT has striven continuously to contribute to the local education for over 60 years.

Hong Kong College of Technology International (HKCTI) is the operator of the programmes. Being a subsidiary set up by HKCT, HKCTI specializes in the operation of Undergraduate and Postgraduate degree programmes which are awarded by our overseas partner universities.

International Education (IE) is a branch under HKCT, which carries the missions of promoting life-long learning by providing top-notch academic programmes ranging from Diploma to Master Degree from world class institutions to keep abreast with the dynamic changes of the world. Programme disciplines include Building Construction & Surveying, Civil Engineering, Electrical & Mechanical Engineering, Property & Facilities Management, Health, Safety and Environment, Business Administration, Accounting and Finance, Graphic Design, Tourism and Event Management, Information Technology and Beauty Services.

IE also collaborates with local professional bodies and overseas institutions to organize seminars and conferences to facilitate academic exchanges and sharpen competency of workforce, strengthen the territory's competitive edges to embrace dynamic changes brought by globalization.

Professional and academic services at IE include:

- Professional seminars and short courses;
- National and international conferences;
- Knowledge transfer between Hong Kong and overseas academics or professionals;
- Liaison with local/overseas institutions and professional bodies

Diploma in Professional Studies (Building Technology)

專科文憑 (建築)

Part-time 1 year

This programme admits students in September, January and May every year.

Accreditation

Introduction

Diploma in Professional Studies (Building Technology) is a one-year part-time programme providing the foundation for further study in the field of building and construction.

Professional Recognition

This part-time programme is accredited by the Chartered Association of Building Engineers (CABE) for student membership.

Entry Requirements

- Applicants should have completed F.5 with a pass in Mathematics; or
- Applicants should have Certificate in Building and Construction related discipline; or
- Mature entrants with relevant working experience; or equivalent.

Further Study

Graduates are eligible to apply for admission into Year 1 of Higher Diploma in Building Technology.

Career Prospects

Graduates of the diploma programme are equipped with fundamental knowledge to be technicians or foreman in the area of Building and Construction.

Programme Structure

Introduction

Higher Diploma in Building Technology is a two-year part-time programme providing academic pathway in relevant disciplines to obtain higher level of qualification.

Professional Recognition

This part-time programme is accredited by the Chartered Institute of Building, UK (CIOB), Chartered Association of Building Engineers (CABE) and Hong Kong Institute of Construction Managers (HKICM). Graduates who fulfil the specified education with adequate working experience requirements are eligible to apply for Student or Associate Membership of CIOB, CABE and HKICM.

This programme is also accredited by The Institute of Clerks of Works, UK (ICWCI), The Institute of Clerks of Works and Hong Kong (HKICW). Graduates who fulfil relevant working experience are eligible to apply for Membership of ICWCI.

Programme Structure (Year 1)

Registered in 1997

HKCPM
Hong Kong Institute of
Certified Property Managers

Introduction

This part-time programme which is conferred by the University of Central Lancashire, UK, has been launched since 2001. It covers a wide range of estates related aspects of sustainable business in order to support the core activities of an enterprise, including building and estates development, maintenance management and building services provision and control. The concept of sustainability has been incorporated in most of the modules in the restoration of our environment.

Professional Accreditation

This programme is accredited by Royal Institution of Chartered Surveyors (RICS), The Chartered Institute of Building, UK (CIOB) and Chartered Association of Building Engineers (CABE). Graduates who fulfil the specified education with adequate working experience requirements are eligible to apply for the Membership of RICS, CIOB and CABE.

This programme is also accredited by The Hong Kong Institute of Clerks of Works (HKICW), Hong Kong Institution of Incorporated Engineers (HKIIE) and Hong Kong Institute of Certified Property Managers (HKCPM). Graduates who fulfil specified education and professional development requirements are eligible for applying for Membership of HKCPM.

Programme Structure⁺

Students have to complete 5 taught modules and a dissertation in 4 semesters, the minimum length of study is 15 months.

Assessment

Taught modules:

Coursework (50%) and Examination (50%)

OR Coursework (100%)

Dissertation :

Interim Report, Presentation and Final Report (100%)

Mode of Delivery

Each taught module consists of face-to-face lectures and tutorials. All classes are scheduled on weekday evenings, Saturdays and /or Sundays.

Semester One

- Facilities Management
- Project Analysis and Appraisal

Semester Two

- Maintenance Management
- Health and Safety Management or Building Conservation
- Dissertation (Part I)

Semester Three

- Construction Law
- Dissertation (Part II)

Semester Four

- Dissertation (Part III)

[Dissertation is supported by two supplementary modules including "Communication & Research Methods" and "Information Technology Skills"]

⁺ Course content is subject to review and changes without prior notice.

Entry Requirements

- Applicants should be holders of Higher Diploma in Building Technology awarded by HKCT with relevant industrial experience; or
- Holders of Higher Diploma/ Associate Degree/ Higher Certificate in Building Studies/ Facilities Management/ Estate Management/ Surveying or related discipline from local recognised institutions, with relevant industrial experience.
- Applicants should possess English proficiency level up to IELTS 6 or a pass in HKCT English Test or English as medium of instruction in previous postsecondary study or HKDSE English: Level 3 at Category A English language or equivalent, or
- Applicants should possess English Proficiency fulfilling the University's requirement.
- Applicants who do not satisfy the above academic entry requirement may be admitted at the discretion of the University.

BSc (Hons) Construction Project Management

建造工程項目管理(榮譽)理學士

Registration No.: 251152*

Part-time minimum 15 months

This programme admits students in September, January and May every year.

Accreditations

Introduction

This part-time programme which is conferred by the University of Central Lancashire, UK, has been launched since 2001. It includes the study of quality management system, project management skills in application to the design and construction of buildings, the study of health and safety management in application to the construction process. The programme comprises three basic major components:

- The technology of construction.
- The management and organisation of resources.
- The legal framework set by society relating to contract, safety and environment.

Professional Accreditation

This programme is accredited by Royal Institution of Chartered Surveyors (RICS), The Chartered Institute of Building, UK (CIOB) and Chartered Association of Building Engineers (CABE). Graduates who fulfil the specified education and adequate working experience requirements are eligible to apply for the Membership of RICS, CIOB and CABE.

This programme is also accredited by Hong Kong Institute of Construction Managers (HKICM), The Hong Kong Institute of Clerks of Works (HKICW) and Hong Kong Institution of Incorporated Engineers (HKIIE). Graduates who fulfill specified education and professional development requirements are eligible to apply for Membership of HKICM.

Accreditations

Introduction

The BSc (Hons) Building Surveying programme is conferred by the Leeds Beckett University, UK. This course provides the skills that need in crucial areas of design, law, management and technology to become a building surveyor. It will enable you to look at a building and see potential, create plans and consider practical aspects of its use and sustainability.

Professional Accreditation

The programme is accredited by the Chartered Association of Building Engineers (CABE) and Hong Kong Institute of Certified Property Managers (HKCPM). Graduates who fulfil the specified education with adequate working experience requirements are eligible to apply for membership of CABE and HKCPM. The programme will also seek for accreditation from Royal Institution of Chartered Surveyors (RICS).

Programme Structure⁺

Students have to complete 6 taught modules and a dissertation, the minimum length of study is 15 months. Students must complete "Construction Contracts" & "Interdisciplinary Project" before admission to other modules.

Assessment

Taught modules:

Examination, Coursework, Presentation (as per the requirement of each module)

Dissertation:

Interim Report, Presentation and Final Report (100%)

Mode of Delivery

Each taught module consists of face-to-face lectures and tutorials. All classes are scheduled on weekday evenings, Saturdays and/or Sundays.

Semester One

- Construction Contracts
- Interdisciplinary Project

Semester Two

- Design Detail, Human Factors and Fire (BIM)
- Experiential Learning

Semester Three

- Facilities Maintenance and Management
- Dissertation (Part I)

Semester Four

- Conservation, Adaptation and Refurbishment of Buildings
- Dissertation (Part II)

⁺ Course content is subject to review and changes without prior notice.

Entry Requirements

- Applicants should be holders of Higher Diploma in Building Technology awarded by HKCT with relevant industrial experience; or
- Holders of Higher Diploma/Higher Certificate in Building Surveying, Surveying or related disciplines with relevant industrial experience.
- Applicants should possess English proficiency level up to IELTS 6 or a pass in HKCT English Test or English as medium of instruction in previous postsecondary study or HKDSE English: Level 3 at Category A English language or equivalent.
- Applicants who do not satisfy the above entry requirements may be admitted at the discretion of the University through an interview and assessment by a committee.

Accreditation

Introduction

The BSc (Hons) Quantity Surveying programme which is conferred by the Leeds Beckett University, UK, is designed for those who wish to be at the centre of the management of construction procurement processes. You will learn about the issues affecting how quantity surveyors organise, control and manage the costing of building projects - from building economics to contracts and construction law, from construction technology to project management. You will undertake individual and group assessments to develop core skills. With your excellent analytical, arithmetical and IT skills, we will help you to develop as an innovative individual and team player with the problem solving and transferrable skills necessary to succeed in this ever-evolving field.

Professional Accreditation

The programme is accredited by the Chartered Association of Building Engineers (CABE). Graduates who fulfil the specified education with adequate working experience requirements are eligible to apply for membership of CABE. The programme will also seek for accreditation from Royal Institution of Chartered Surveyors (RICS).

Part-time 2 years

This programme admits students in September, January and May every year.

Accreditation CIOB

Introduction

This programme seeks to develop the skills of postgraduate managers and engineers in the following areas:

- Enable graduates in management and engineering disciplines to develop their project management skills.
- Focus upon project planning and control methods within the construction project management process.
- Extend knowledge of innovative tools, techniques and methodologies in the resolution of complex problems.
- Develop personal, interpersonal and project-personnel skills.
- Provide the opportunity for students to complete a range of modules that are relevant to their working environment and general interest in the context of international project management.
- Develop the student's research methods and applications.

The course comprises a total of nine modules including triple module on dissertation which is the final phase of study and promotes philosophical approaches to research and investigation. Students can select their own research focus for the dissertation and this commonly relates to topic areas that are both of personal interest and helpful for career development.

Professional Recognition

This programme is accredited by Chartered Institute of Building, UK (CIOB). Graduates who fulfil specified education and professional development requirements are eligible to apply for Membership of CIOB.

Programme Structure⁺ (Year 1)

- Health and Safety Management
- Project Team and Leadership Development
- Strategic Project Management
- Project Planning, Control and Analysis
- Risk and Value Management
- Advanced Construction Technology

Programme Structure⁺ (Year 2)

- Master's Dissertation (triple module)

Entry Requirements

- Applicants should either have at least a bachelor's degree in building construction related discipline with evidence of industry experience or have equivalent experience or training, normally from the work environment. The previous degree should have been completed in English.
- Any applicants not meeting the standard entry requirements will be considered via the University recognition of prior learning (RPL) process.

Postgraduate Diploma in Health and Safety

健康及安全深造文憑課程

Registration No.: 252692*

Part-time 1 year

This programme admits students in September and January every year.

Accreditation

Introduction

This Postgraduate Diploma in Health and Safety programme is conferred by Leeds Beckett University, UK. Health and safety is an integral and important part of any organisation - whether you work as an operations manager, office manager, engineer or technician, you will be involved with ensuring a safe working environment for everyone. We will develop your knowledge of how different organisations use varying levels of safety procedures and you will assess their impact on the whole company. This is also a path towards becoming a professional Registered Safety Officer (RSO).

Professional Accreditation

This programme is accredited by Institution of Occupational Safety and Health (IOSH). Graduates of this programme are eligible to apply for Graduate Membership of IOSH.

Programme Structure⁺

Students have to complete 6 taught modules in 3 semesters, the standard length of study is 12 months.

Assessment

Examination, Coursework, Presentation (as per the requirement of each module).

Mode of Delivery

Each taught module consists of face-to-face lectures and tutorials. All classes are scheduled on weekday evenings, Saturdays and/or Sundays.

Semester One

- Ergonomics
- Health and Safety Practice

Semester Two

- Occupational Health and Wellbeing
- Professional Practice and Development

Semester Three

- Quantitative Risk Analysis
- Sensible Risk Management

⁺ Course content is subject to review and changes without prior notice.

Entry Requirements

- Applicants should either have at least a second class honours degree in any discipline with evidence of an aptitude for health and safety or have equivalent experience or training, normally from the work environment.
- The English requirement for this course is IELTS 6.0 with no skills below 5.5 or a pass in HKCT English Test or equivalent.
- Applicants who do not satisfy the above entry requirements may be admitted at the discretion of the University through an interview and assessment by a committee.

Tuition Fee[^]

HK\$56,000 in 3 instalments (1st two instalments \$19,000 and the 3rd instalment \$18,000)

Administration Fee

HK\$1,500 Paid upon 1st instalment
